Water Capacity		400 L		

INTERIOR LAYOUT

The interior of the Palm Beach 38 is a complete custom build.

The general layout comprises of a main saloon, lower galley and master cabin forward. A fully enclosed head is located on the starboard side and has a vanity cabinet with mirror, maserating toilet and wet locker.

A single pilot seat is positioned at the helm station in the main saloon and is complimented with adjacent lounges that convert to additional berths when required.

The aft cockpit is on the same level as the main saloon and the lounge configuration is positioned as per the owners selection. The forward deck is accessed by wide side decks port and starboard with handrails located on top of the coach roof for added safety.
